PRODUCT RANGE

PRODUCTS

INGREDIENT LIST: KEY INGREDIENTS IN BOLD

NATURAL PAW PAW BODY LOTION

- Light, refreshing texture
- Rich moisturisation with non-greasy feel
- Radiant and luminous skin
- 72 hours continuous hydration

Aqua, Paraffinum Liquidum, Glycerin, Stearic Acid, **Niacinamide (Vit. B3)**, Ceteareth-20, Petrolatum, Cetearyl Alcohol, Sodium PCA, Saccharide Isomerate, **Carica Papaya Fruit Extract (Certified Organic Paw Paw)**, **Retinyl Palmitate (Vit. A)**, **Pantothenic Acid (Vit. B5)**, **Ascorbyl Palmitate (Vit. C)**, **Tocopheryl Acetate (Vit. E)**, Butyrospermum Parkii (Shea) Butter, Dimethicone, Carbomer, Glyceryl Stearate, Phenoxyethanol, Benzyl Alcohol, Xanthan Gum, Disodium EDTA, Phospholipids, Leuconostoc/Radish Root Ferment Filtrate, Diazolidinyl Urea, Sodium Hydroxide.

NATURAL PAW PAW BODY WASH

- Moisturising, gentle formula
- Vibrant body wash with the natural aroma of Kangaroo Paw flower
- 24 hours continuous hydration

Aqua, Glycerin, Cocamidopropyl Betaine, Decyl Glucoside, Glyceryl Stearate, **Niacinamide (Vit. B3)**, Disodium Cocoamphodiacetate, Carbomer, Parfum (natural), **Carica Papaya Fruit Extract (Certified Organic Paw Paw)**, **Retinyl Palmitate (Vit. A)**, **Pantothenic Acid (Vit. B5)**, **Ascorbyl Palmitate (Vit. C)**, **Tocopheryl Acetate (Vit. E)**, Saccharide Isomerate, Sodium PCA, Phenoxyethanol, Benzyl Alcohol, Disodium EDTA, Phospholipids, Leuconostoc/Radish Root Ferment Filtrate, Diazolidinyl Urea, Sodium Hydroxide.

NATURAL PAW PAW OINTMENT

- Lush and nutritious with paw paw extract
- Protects and relieves all skin types, even chapped skin
- Multi-purpose, versatile and handy

Petrolatum, **Carica Papaya Fruit Extract (Australian Paw Paw)**, Cera Alba, Myroxylon Pereirae Resin, Potassium Sorbate, Sodium Benzoate.

NATURAL PAW PAW HAND CREAM

- Luxurious, hydrating and fast absorbing
- Soft, silky, velvet after-feel
- Enriched with natural shea butter
- 72 hours continuous hydration

Aqua, Cyclopentasiloxane, Caprylic/Capric Triglyceride, Macadamia Ternifolia Seed Oil, Cetearyl Alcohol, Cyclohexasiloxane, **Niacinamide (Vit. B3)**, Glycerin, PEG-40 Stearate, Saccharide Isomerate, **Carica Papaya Fruit Extract (Certified Organic Paw Paw)**, **Retinyl Palmitate (Vit. A)**, **Pantothenic Acid (Vit. B5)**, **Ascorbyl Palmitate (Vit. C)**, **Tocopheryl Acetate (Vit. E)**, Butyrospermum Parkii (Shea) Butter, Sodium PCA, Sorbitan Stearate, Carbomer, Phenoxyethanol, Benzyl Alcohol, Ammonium Acryloyldimethyltaurate/VP Copolymer, PEG-20 Stearate, Disodium EDTA, Phospholipids, Leuconostoc/Radish Root Ferment Filtrate, Diazolidinyl Urea, Sodium Hydroxide.

PAIRING SCIENCE — with nature —

KEY INGREDIENTS

PAW PAW

Australia's original superfruit

- Multi-functional fruit loaded with vitamins and papain
- Exceptional natural exfoliant for skin repair and nourishment

Paw paw, or papaya, is rich in Vitamin A, B & C and antioxidants to deeply hydrate the skin. It also contains papain, a proteolytic enzyme, to help in wound healing and inflammation. With its exfoliating and skin lightening benefits, it helps reduce skin pigmentation and sheds away dead skin cells for a radiant complexion.

VITAMIN A

Best age defence

- Renews and corrects aging pigmented skin
- Promotes healthy cellular structure

Vitamin A, or retinyl palmitate, visibly improves the appearance of fine lines and wrinkles by boosting skin collagen production and increasing skin firmness. Proven in a number of scientific studies since the 1990s, it repairs the cellular membrane of the epidermis, decreases melanin clusters to even out dark spots, and deeply hydrates cells to promote a firm youthful skin. It also decreases sebum production to fight acne.

VITAMIN B3

Targets skin redness

- Calms and soothes skin to reduce sensitivity
- Improves skin barrier function

Vitamin B3, or niacinamide, stimulates skin barrier function and locks in moisture by increasing the production of ceramides and fatty acids in the skin. This increased moisturisation reduces skin sensitivity and increases resilience to external damage. With its anti-inflammatory properties, it soothes the skin and reduces redness.

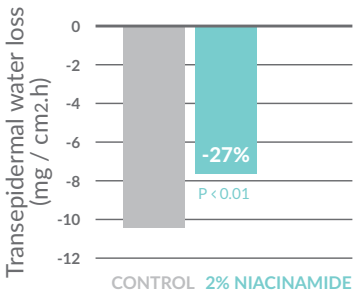
Influence of topical application of 2% niacinamide on TEWL



VITAMIN B5

Locks in moisture

- Boosts hydration to relieve dry skin
- Leaves skin soft and supple all day

Vitamin B5, or pantothenic acid, is a strong natural humectant providing long-lasting moisturisation of the skin, helping it to retain a soft and silky feeling. Because of its humectant properties, it penetrates deeply into the dermis to hydrate and maintain skin health, and promote the healing of small wounds. Its exfoliating and anti-inflammatory properties make it effective in providing a fresh youthful look.

VITAMIN C

Potent skin rejuvenation

- Powerful free radical scavenger
- Stimulates collagen production for firm youthful look

Vitamin C, or ascorbyl palmitate, is a versatile antioxidant to help rejuvenate aged and photo-damaged skin. It is a beauty remedy for UV damaged problematic skin which has lost its elasticity. As an essential component in collagen production, Vitamin C fights free radicals and promotes regeneration of skin cells. It also demonstrates synergistic antioxidant activity with Vitamin E.

VITAMIN E

Antioxidant protection

- A natural skin conditioner for deep hydration
- Daily skin protection from pollution and UV-induced damage

Vitamin E, or tocopheryl acetate, is a strong antioxidant known for its skin barrier function. It is a natural skin conditioner, as it helps improve moisture retention in the epidermis. It can protect the skin from free radicals caused by exposure to UV light, smoke and other environmental pollutants. Using both Vitamin E and C allows for a soft and supple complexion.
